# novonosis

Welcome to the era of biosolutions

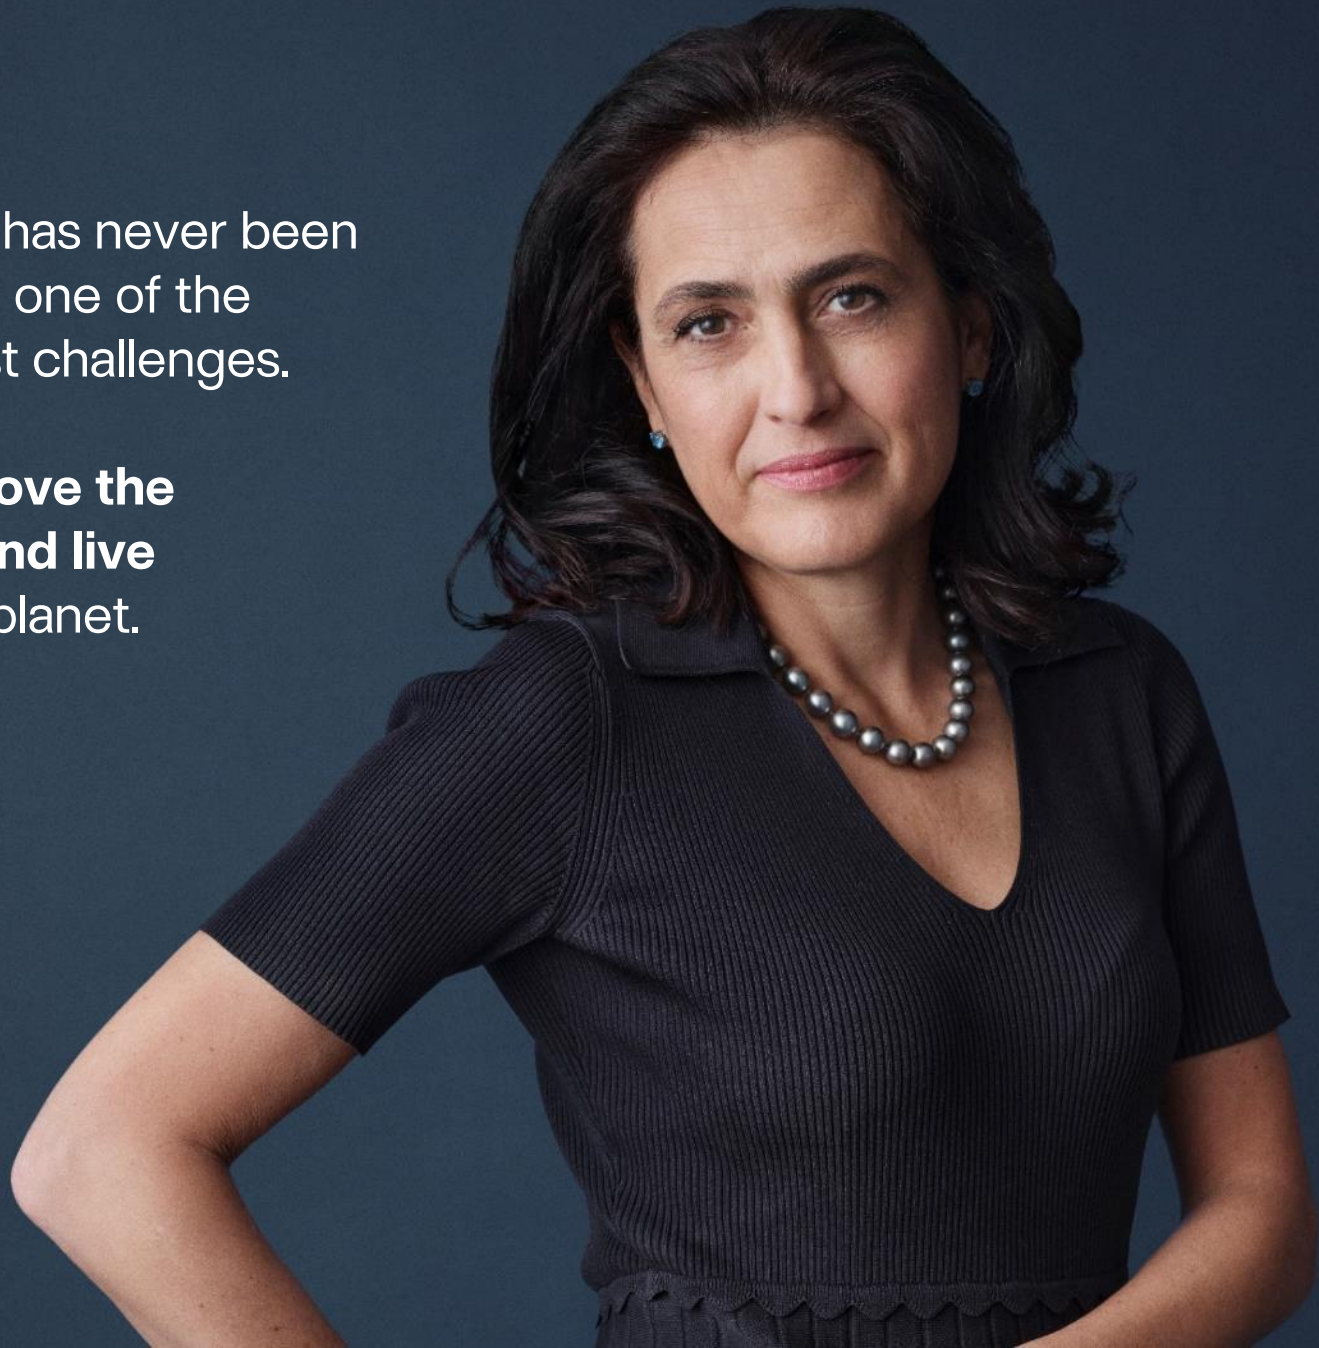

“The global need for biosolutions has never been greater. We believe biology holds one of the keys to solving humanity’s biggest challenges.

Transformative biosolutions **improve the way we all produce, consume and live** for healthier lives and a healthier planet.

The time for biosolutions is now.”

- Ester Baiget, CEO, Novonesis

With 100+ years of innovation as our foundation,  
we will keep delivering transformative solutions

Diversity target across Novonesis

\* Combined financials are based on Chr. Hansen's audited Annual Report 2022/23 and Novozymes' unaudited interim reports for 9M 2023 and Q4 2022. Novozymes figures have been converted from DKK to EUR using a single FX rate of 7.44 for purposes of translation only.

\*\*45% minimum men and 45% minimum women across all professionals and senior management by 2030

# How we have organized our commercial offerings

## Division : Food & Health Biosolutions

### Business area: Biosolutions for human health

People today want to be in control of their health at every life stage. And their needs are more complex and expectations higher than ever. With our scientifically-researched and clinically-tested biosolutions for a stronger body and mind, they can navigate to better lifelong health.

### Business area: Biosolutions for food and beverages

By 2050, we'll need to feed two billion more people. At the same time, food producers face ever-changing demands. Our biosolutions enable great taste, texture and productivity with simpler, shorter labels. They extend shelf life, improve nutritional profiles and deliver novel health benefits.

## Division : Planetary Health Biosolutions

### Business area: Biosolutions for planetary health

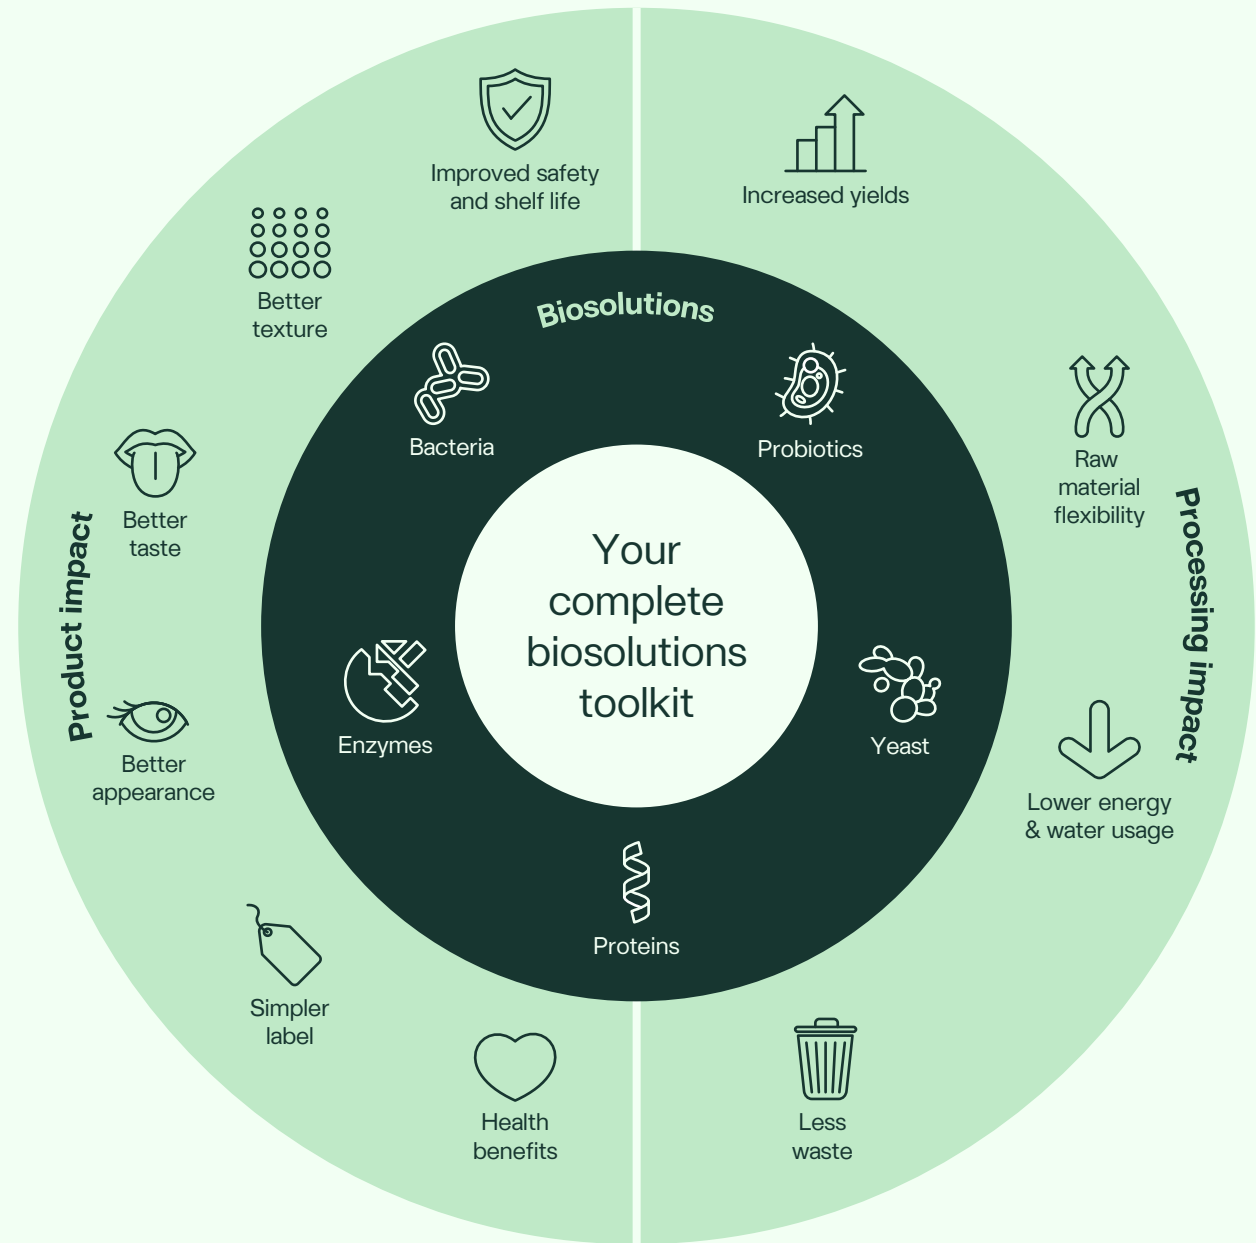

We need to improve the health of the planet. Our biosolutions optimizes our customers' production and deliver products with new benefits and claims. They also enable reduced use of energy, chemicals and water; get more output from fewer raw materials and reduce waste across a wide range of industries.

# Purely dedicated to biology

Biosolutions are tiny but mighty enzymes and microbes.

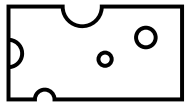

The right combination helps transform your products, your processes and your impact on the planet.
